

## Napkins, Towels, Table Covers

Napkins, kitchen towels and table covers must contain at-least 30% post-consumer content and 95% recycled content to be considered environmentally friendly, according to EPA guidelines. Napkins should also be used with an appropriate dispenser that reduces waste. Cost savings as well as waste stream reduction can be achieved with these paper product systems.

Bay West kitchen towels contain 40% post-consumer content and 100% recycled content.

Most SCA Tissue products including their dinner and dispenser napkins are certified by Environmental Choice and contain 30% post-consumer content and 100% recycled content.

Certo napkins meet the EPA guidelines containing 100% recycled content, including minimum 30% post consumer content.
